

science shop program

The Women and Children's Health Research Institute (WCHRI) Science Shop program offers competitively funded training support to students interested in pursuing community-based research opportunities. The program helps match University of Alberta students with community organizations to pursue summer research projects that are mutually beneficial. Funded projects support community-based research relevant to the mandate of WCHRI.

On behalf of WCHRI, Dr. Sandy Davidge, Director, would like to thank both the Stollery Children's Hospital Foundation and the Royal Alexandra Hospital Foundation for their ongoing financial commitment to this grant program.

WCHRI would like to acknowledge the efforts made by all applicants and their supervisors.

The Offers of Award for the 2013 WCHRI Summer Studentship program are as follows:

Applicant Name	Supervision	Community Partner	Faculty-Department	Project Title
Batal, Kareema	Raine, Kim D/ Reed, Shandy	AB Policy Coalition for Chronic Disease Prevention	School of Public Health - Centre for Health Promotion Studies (CHAPS)	Protecting children from the harmful effects of marketing unhealthy food and beverages: Engaging parents in charge
