

Science Shop Program

The Women and Children's Health Research Institute (WCHRI) Science Shop program offers competitively funded training support to students interested in pursuing community-based research opportunities. The program helps match University of Alberta students with community organizations to pursue summer research projects that are mutually beneficial. Funded projects support community-based research relevant to the mandate of WCHRI.

On behalf of WCHRI, Dr. Sandy Davidge, Director, would like to thank both the Stollery Children's Hospital Foundation and the Royal Alexandra Hospital Foundation for their ongoing financial commitment to this grant program.

WCHRI would like to acknowledge the efforts made by all applicants and their supervisors.

The Offers of Award for the 2014 WCHRI Science Shop program are as follows:

Applicant Name	Supervision	Community Partner	Faculty-Department	Project Title
Quintanilha, Maira	Bell, Rhonda/ Mayan, Maria	Multicultural Health Brokers	Faculty of Agricultural, Life & Environmental Sciences - Department of Agricultural, Food and Nutritional Science	Enrich: promoting appropriate maternal body weight in pregnancy and postpartum through healthy eating
Lukasewich, Megan M	Jardine, Cindy	K'alemi Dene School & Queen Elizabeth High School	School of Public Health – Public Health Sciences	The impact of participatory approaches to research on Aboriginal youths
Sivananthajothy, Priatharsini (Tharsini)	Springett, Jane	Multicultural Health Brokers	School of Public Health – Public Health Sciences	Understanding perceptions of community engagement held by stakeholders within the family care clinic planning process

Should there be any discrepancy between the above listing and the formal result letter, the result provided by formal letter will be considered the final decision.
