

## Results of the 2018 WCHRI-CUP patient and community engagement training (PaCET) Competition

The Women and Children's Health Research Institute (WCHRI) together with the Community-University Partnership (CUP) is pleased to announce the results of the 2018 Patient and Community Engagement Training Grant Competition.

This opportunity prepares trainees (graduate students and postdoctoral fellows) to better understand the complexity of women and/or children's health and to navigate stakeholder dynamics in collaborative, transdisciplinary and cross-sectoral projects. The objective of the program is to build capacity and support practice in non-academic (patient/community) stakeholder engagement in women and/or children's health research.

A listing of the 2018 successful applicants is provided below. On behalf of WCHRI, Dr. Sandy Davidge, WCHRI executive director, Dr. Maria Mayan, chair, and Dr. Susan Ross, co-chair of the PaCET Advisory Committee, we would like to congratulate the awardees and thank all of the applicants for the time and effort invested in their grant submission.

Finally, WCHRI would like to acknowledge the ongoing commitment and generosity of the Stollery Children's Hospital Foundation and supporters of the Lois Hole Hospital for Women for their financial support of this grant program.

### Listing of awardees

| Applicant         | Supervisor         | Institution                      | Project Title   | WCHRI Funder |
|-------------------|--------------------|----------------------------------|---|--------------|
| Buschmann, Robert | Mayan, Maria J     | Extension                        | A comprehensive needs assessment of early learning and care in Edmonton                       | Both         |
| Campbell, Alyson  | Scott, Shannon     | Nursing                          | Integrated KT with parent stakeholders to optimize children's emergency care                  | SCHF         |
