Hiring – Coordinator, Programs & Ecosystem (Full Time)

Our Vision

The Health Innovation Hub is a community incubator for innovators and entrepreneurs working towards better human health outcomes

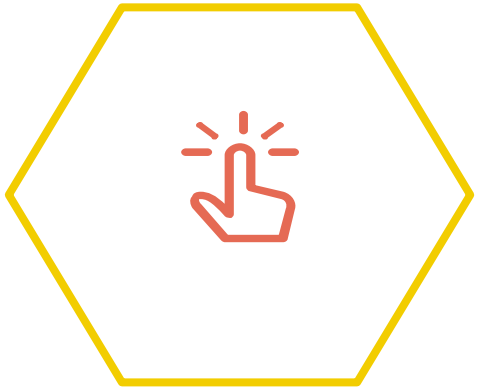
Our Mission

We help health entrepreneurs achieve commercialization success for their health &life science technologies by providing programming support, access to space and training resources, coaching and consulting support, and connections to peers and advisors

Our VALUES

Collaborate

We value collaboration and working with others to foster a unified human health community



Innovate

We believe in a continuous learning mindset. We listen to our members to understand their challenges and work to modify existing processes and create new solutions that address these challenges

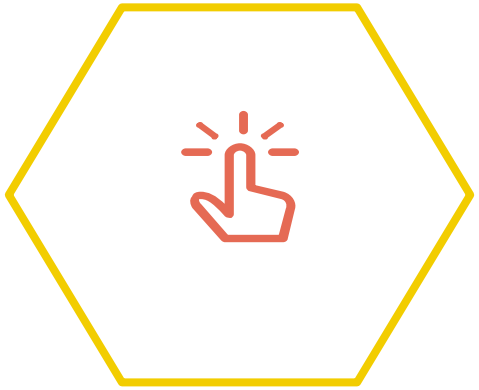
Impact

We are committed to supporting our community members in their commercialization journey. We pride ourselves on driving impact as a post - secondary institution led incubator dedicated to human health outcomes

Who are we for?

Entrepreneurs

Researchers who have created/ want to create a startup venture and are looking for support



Service Providers

Investors, law firms, consulting bodies, other professional bodies that would like to access our companies and offer their services to them

Students & Trainees

Current and past students (postdoc, graduate, undergraduate) who want to transition into industry and want to network with entrepreneurs and company employees

Success STORIES

NANOSTICS PRECISION HEALTH

ClarityDX bladder

Nanostics Announces the Launch of its Bladder Cancer Clinical Study to Identify the Most Potent Disease Predictors for Early Detection of Bladder Cancer

- Clinical study launched in June 2022 with patient recruitment in Alberta with plans to expand to further sites across North America.
- The aim of the study is to validate a novel and minimally invasive liquid biopsy test for bladder cancer diagnosis using Nanostics' ClarityDX® diagnostic platform.
- The study is supported in part by the Alberta Innovates AICE-Concepts Program with a $600,000 award to Dr. John Lewis, Bird Dogs Chair in Translational Cancer Research at the University of Alberta.
